

Because women's work is underpaid or unpaid and what we
look like is more important than what we do and if we
wear skirts we're asking for it and if we dont
we're dykes and if we love women it's because
we can't get a real man and if we expect community
care for our families we are selfish
and if we stand up for our
rights we are loud
and if we dont
we are typical
weak females
and if we fight
fundamentalisms we are racist
and if we fight racism
we are just being PC
and we arent deemed
responsible enough to decide
if, when and how we
give birth

FEMINIST FIGHTBACK!
